## PYTHON

The simple graphical interface gives you control over the following features of your installed Python remote start or security with remote start system:

- Lock / Arm
- Unlock / Disarm
- Remote Car Starter
- Trunk Release
- Panic
- Aux Channels

#### Locate your car with your smart phone

SmartStart GPS includes all of the start and control features of SmartStart, the ability to locate your car from almost anywhere, plus other exciting features:

- Vehicle Location and Speed
- Lockdown Alert
- SmartFence
- Speed Alert
- Social Media Check-In
- HotSpot • Curfew

#### SmartSchedule

• Patent-pending technology that sends smart, behavior-based reminders to you when it's time to start your car. Triangulates scheduling, weather and location data to generate these predictive start reminders

#### Vehicle Status

- Real-time car status and unprecedented two-way connectivity. Locate your vehicle with GPS and also know that it's running, armed, locked, and more

#### Motor Club

- Free 24/7/365 roadside assistance now comes with the Python SmartStart

#### SmartPark

- Notes your vehicle's location every time you press the door lock button from the Car Control screen, or the Park My Car button Parking Meter

#### SmartPark screen

- Set the Parking Meter in the app. It will keep track of how much time you have remaining and let you know when it's time to refill

#### Vehicle Diagnostic

- read vehicle trouble code on app

# SMARTKey

**LOCK AND UNLOCK YOUR VEHICLE, HANDS-FREE WITH THE NEW SMARTKEY BLUETOOTH INTERFACE**

## PYTHON

Install Python SmartKey as a standalone unit to lock and unlock your doors, or add it to virtually any Python security or remote start system allowing you to control your vehicle with your smartphone\*

(\*A compatible iOS, Android or Blackberry Device)

**No Keys • No Fobs • No Launching Apps**

### Locate your car with your Smart Phone

With the Python SmartKey module, you will never have to press a button to get into your vehicle again. All you need is your Smart Phone. The SmartKey comes with the following features:

- Lock / Arm
- Panic
- Unlock / Disarm
- No service plan required

### Bluetooth Connectivity

• Connects your vehicle and Smart Phone with Bluetooth technology allowing you to control your vehicle via the Python SmartStart app

### Aux Channels Compatible

• Customize and control the look and feel of two auxiliary channel buttons on the app's home screen. Set your app up to interact remotely with any part of your car (custom suspension, roll down your windows or sunroof, blast your radio). Anything you can image.

### Motor Club

• Free 24/7/365 roadside assistance now comes with the Python SmartStart

### SmartPark

• Notes your vehicle's location every time you press the door lock button from the Car Control screen, or the Park My Car button Parking Meter

#DSKC-100	
Price	Retail
\$88 <sup>36</sup>	\$143 <sup>99</sup>

# USE YOUR FACTORY KEY TO START YOUR VEHICLE BY PRESSING LOCK 3 TIMES

## ADVANTAGES:

- Simplified install • Best price
- Works on most newer vehicles
- EASY TO USE, PRESS "LOCK" 3 TIMES TO REMOTE START

## DISADVANTAGES:

- Short range
- No cold start
- No 2-way starting

## PYTHON DBALL2: THE POWER OF ONE

ALL IN ONE DOOR LOCK AND OVERRIDE MODULE THAT COVERS OVER  
95% OF VEHICLES ON THE ROAD TODAY

#DBALL2  
INTERFACE MODULE  
Price      Retail  
**\$61<sup>72</sup>**      **\$91<sup>99</sup>**  
20+ Unit Price  
**\$57<sup>44</sup>**

### DBALL2: DATABUS ALL INTERFACE MODULE

- An all in one door lock & override module that covers over 95% of cars on the road today
- Support legacy systems like VATS and PASSLOCK as well as support doorlocks and override on the most modern of cars like Toyota with pushstart ignition system and Chrysler with electronic ignition
- Offers the most advanced hardware architecture in our industry and covers more cars than any of our competitors
- Requires XK Loader2 to program to the vehicle

## T-HARNESS

T-HARNESS PRICE FROM  
Qty 1-9      Qty 10+  
**\$16<sup>88</sup>**      **\$15<sup>71</sup>**

See page 8 for applications and pricing

## T-HARNESS

- Nothing easier or faster
- You can now save hours off your installation of a remote starter
- Simply plug in the T-Harness between the key switch and the factory ignition harness, plug in a DBALL2 on the short end and you are done
- Installation may require the connection of additional wires for certain models, see installation guide for specific install type

ADD

OPTIONAL

## PYTHON SMARTSTART

UNLIMITED RANGE

• Unlock / disarm	• Vehicle location and speed	• Social media check-in	• Vehicle status
• Remote car starter	• Speed alert	• SmartFence	• Motor club
• Trunk release • Panic		• HotSpot • Curfew	• SmartPark
			• SmartPark screen

See page 2 for additional details and pricing

# DO YOU WANT LONGER RANGE? AND/OR 2-WAY STARTING?

## ADVANTAGES:

- Up to one mile range • 2-way starting on some models
- Works on most newer vehicles

## DISADVANTAGES:

- Only one remote (2nd optional) • No cold start
- No pitstop mode • No aux features

## PYTHON EXPRESS START

FITS 95% OF VEHICLES ON THE ROAD TODAY

- Digital technology, which includes the XPRESSKIT DBALL/DBALL2, that saves huge amounts of installation time per vehicle.
- Configurable hardware and easy three-step installation process create such an efficient solution, you will get more cars through the bay than ever before
  - Use the same XPRESSSTART system hardware for both RSR and RXT solutions
- XPRESSSTART kits remove the guess work when configuring your remote start systems, while still offering several key options for a wide range of vehicles
  - Requires XK Loader2 to program to the vehicle

# DRONE™ mobile

## YOU'RE NEVER OUT OF RANGE

Drone links your car's remote start or security system to your smartphone\* via the internet  
(\*A compatible iOS, Android or Blackberry Device)

### #DR-3000 DRONEMOBILE

Price	Retail
<b>\$125<sup>00</sup></b>	<b>\$199<sup>99</sup></b>
<b>20+ Unit Price</b>	<b>\$106<sup>25</sup></b>

### AUTO SECURITY COMPUSTAR

Drone is now smarter, stronger, and faster! The DR-3000 offers all of the same features and benefits of previous models, but in a compact casing that is 60% smaller. This means that installation is even easier than before and you can now mount drone at optimal positions for a better and more reliable signal

#### Arm / Disarm

Arm or disarm your car anywhere that has cellular coverage. Two-way confirmation

#### Remote Start / Shutdown

Cool your car in the summer and warm it in the winter. Compatible with Compustar and most remote start brands. Two-way confirmation and start error notifications displayed

#### Trunk Release

Tap the trunk release button on the app and two-way confirmation is displayed on app

#### Two Auxiliary Outputs

Control external devices such as sunroofs or power windows through two available auxiliary outputs. External interface modules may be required

#### GPS Tracking

Track the exact location of your vehicle on a map, receive important alerts and view any available vehicle status information

#### Geofence

Set a "digital fence" around a point of interest. Receive alerts if/when a vehicle arrives or departs a specific location

#### Alerts / Push Notifications

If you own a smartphone with push alerts, you can receive vital alarm and GPS alerts via push alert on the app

#### Web Control

Access DroneMobile through any web browser on a smartphone or computer

#### Multiple Vehicle Control

Toggle between multiple vehicles within the preference settings on your app and receive important alerts and notifications for every vehicle on your account
